6. Email sent to Larry: Hi Larry,

Just to let you know, there are only 22 out of about 80 paintings left from Mike's original collection. I'm happy to say that the rest of them have been given away to Mike's friends and acquaintances. So if the coordinator of the EOC Holiday Season event thinks that it's a good idea to offer the remaining 22 paintings to EOC members during this event, then I think we should do that. I think that Mike's paintings ended up being his legacy, a lasting expression of his creativity that speaks for him in his absence.

Larry wishes to discuss whether we could use the paintings as silent auction items or just as prizes. Auction would be better because they would go to someone who wanted them.

7. Jason's item:

Let's look at our prepay rules and see if we can now lower the \$1.50 or 3% admin fee on prepaid events. Since we're all Paypal now, the cost may have gone down significantly. This has a big impact on cheaper events since a \$1.50 premium on a \$10 event is quite a bit. But sometimes we have to make an event prepaid for reasons other than money (such as attendance commitment).

Perhaps we can make it straight percentage only, or lower it to 50 cents. I think the \$1.50 was based on PC banking refunds, so it should be different now.
